

DRUG DISCOVERY AND NEW THERAPEUTICS

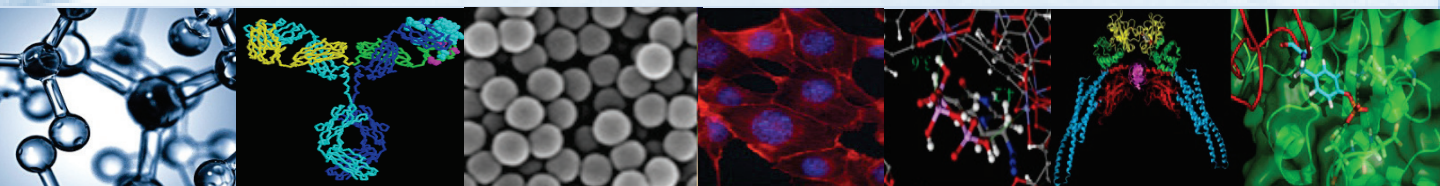

First international symposium
of Paris-Saclay University

Orsay, April 9-11, 2018

Co-chairs:

Dr. R. Gref (Chemistry department)

Prof. P. Couvreur (Life Sciences department)

Main topics

- Medicinal chemistry
- Therapeutic proteins and bioconjugates
- Chemical biology
- Drug delivery
- Diagnostic and theranostic
- Therapeutic targets
- Tissue reconstruction
- Gene and cell therapy
- Pharmacological and toxicological pre-clinical evaluation

Invited Speakers

Dr. Alain Beck

CIPF Pierre Fabre, France

Prof. Annette Beck-Sickinger

Leipzig University, Germany

Prof. Robert Langer

MIT, Department of Chemical Engineering, USA

Dr. Martine Clozel

Idorsia Pharmaceuticals, Switzerland

The registration is FREE but MANDATORY

Deadline : February 28th, 2018
